

## Health and Safety Guidelines

Your wellbeing is our priority and that will never change! This is why we've been working on new health and safety measures so you can enjoy your stay with us this Summer. We are following the best practices as advised by our local governments and are updating our safety precautions as the situation develops.

### Common Areas

- We will clean and sanitize our public areas frequently.
- There will be extensive sanitizing practice of public bathrooms, door knobs, elevators, etc.
- Hand sanitizers will be available in key spots around the hotel.
- We ask our guests to adhere to the social distancing measures.
- The spa follows all the health and safety measures (reduced number of people, specific access times, sanitizing, etc.).

### Staff

- Our team will have received special training to ensure they follow the guidelines correctly.
- Our team will be wearing PPE (personal protective equipment).

### Restaurants

- Our tables are spaced according to social distancing regulation.
- Our menus are sanitized after being used. We also have the QR code if you wish to see the menu online.

### Rooms

- Our rooms will be thoroughly cleaned before check-in and they will be serviced frequently.
- We have removed the decorations to avoid extra contact.
- The laundry company will also be following the safety measures as advised by our local governments

### Service Providers

- We will make sure that our service providers also follow the health and safety guidelines.
